

THE BREADBOX CAFÉ—NEW YORK FOUNDLING “DOUGHSTIX PROJECT”

The New York Foundling, a proud member of the Long Island City community for 25 years, is pleased to be partnering with the BreadBox Café. The Foundling is one of the City’s largest child welfare agencies, supporting children and families in this community, throughout Queens, and all around the New York Metro Area.

Our joint project will add to the sense of community resurgence fostered at the BreadBox Café, while raising funds to support The Foundling’s services right here in the neighborhood. Our first shared goal is to provide tutoring services for children in foster care. Historically, children in foster care fall far behind their counterparts academically. Your sponsorship of the doughstix that will adorn the façade of the BreadBox Café will demonstrate your concern for the children and help us continue our mission of saving children, preserving families and building communities. **One hundred percent of the proceeds from your sponsorship will support The Foundling’s services *right around the corner.***

**Secure your sponsorship today --
Help us ensure the future success of thousands of
children in Long Island City and throughout Queens.**
